The 18th proposition, which comes from Chicago Board of Trade, urres the construction, under a charter from the General Government, of a double track railroad to be used exclusively for the transportation of freight from the center of the chief source of the supply of gran and produce in the West to the seaboard.

Mr. Richards, of Chicago, addressed the Board in support of the 1, roposition. He showed that in the last year two-chirds more freight was carried from Chicago Eastward by rail than water. In ten years from now not one bashed of grain would pass Eastward by the Eric canal. The Ohio and Musissippi now carry less freight than it grows atong how comes present than by rail.

He was replied to Mr. Monros, of Dabaque, advecating the superiority of river lines.

The administrator of the estate (Mr. Wheeles) now has eigniveen mostles in which to settle all claims, and then the case will come before Surrogate Fowler fore decision as to how the estate shall be disposed of. At this particular time Peter Doriand, counsel for "tys. Jenima Jewell, will put in the claim of that lady as "own cousin" to "Lochy, Ostron." On the final accounting all bills against the catale will be piaced before the Surrogate, every one of which will, no doubt, prove to be a confosity.
